

# Region Norrbotten is looking for *Biomedical Scientists to Gällivare and Kiruna*

## About the Region

Region Norrbotten works for the residents of Norrbotten. We are given a mandate by the residents of county through public elections. Region Norrbotten is the county's biggest employer. We have around 7,500 employees, most of who work within health and medical care. Region Norrbotten provides health and medical care, dental care and education.

Norrbotten is a large county, and makes up a quarter of Sweden's surface area. The Region has five hospitals located in Luleå/Sunderbyn, Kalix, Piteå, Gällivare and Kiruna, together with around 30 health centers. Our operations feature both creativity and innovation. The long distances between locations in our county have resulted in us becoming the best at IT solutions within healthcare.

## The county Norrbotten

Norrbotten is experiencing strong development, both economically and culturally. Here you will find powerful, warm people, consideration and social services, towns and wilderness. Norrbotten offers excellent opportunities for a good work-life balance.

## Gällivare

Gällivare is a large municipality of about 16 000 km<sup>2</sup>. In this territory the villages are obviously spread out and quite distant from each other but you can easily access them by car, bus, cycle or moped. Gällivare literally stands with one foot in the stunning mountain world and the other in the cozy countryside. In between is the town of Gällivare with a wide range of hotels, restaurants, activities and tourist attractions. To see more visit

## Kiruna

Kiruna is multi-cultural, and multi-industrial, with something interesting for everyone. Many people from around the world have found a quality of life here that exists nowhere else. They seek another way of life, move here and settle in our villages. Here they find tranquility, as well as an air of optimism and belief in the future. In 2007, Vittangi was voted Village of the Year in Norrbotten County!

<http://www.kiruna.se/English/>

## Duties

Within laboratory medicine we work with chemical analyzes, samplings, serology and blood donors.

## Your background

We are looking for Biomedical Scientists with EU license and preferably with a license to practice in Sweden according to Socialstyrelsen, more info: <https://legitimation.socialstyrelsen.se/en/educated-within-eu-or-eea/biomedical-scientist>

If you don't have a license to practice in Sweden you will need a strong motivation to learn Swedish, as this is required to receive the Swedish license, and to perform the work with documentation and communication with patients and colleagues.

## Employment

We offer permanent, full time employment. We will help with practical arrangements like accommodation and introduction program and provide language training.

## Salary

Region Norrbotten practices individual salary setting in accordance with collective agreements.

## Interested?

In the beginning of April we will visit Thessaloniki and Athens at the Eures "Sweden week" and hold interviews.

Send your application and personal letter, no later than 24<sup>th</sup> March, to [health@arbetsformedlingen.se](mailto:health@arbetsformedlingen.se), write "Greece, April 2017" in the subject line of your mail. We are looking forward to receiving your application as soon as possible.
