

Region Norrbotten is looking for Nurses in General Care to Gällivare Hospital

About the Region

Region Norrbotten works for the residents of Norrbotten. We are given a mandate by the residents of county through public elections. Region Norrbotten is the county's biggest employer. We have around 7,500 employees, most of who work within health and medical care. Region Norrbotten provides health and medical care, dental care and education.

Norrbotten is a large county and constitutes a quarter of Sweden. The Region has five hospitals situated in Luleå/Sunderbyn, Kalix, Piteå, Gällivare and Kiruna and over 30 health centres. Our activities are characterised by creativity and innovation. The long distances in our county has led, amongst other things, to our becoming the best in IT solutions within healthcare. The County Council has approximately 7 500 employees of which approximately 2 000 are nurses and we need to expand our present teams. We are therefore looking for nurses to Gällivare hospital and to the health centres in the region.

The county Norrbotten

Norrbotten is experiencing strong development, both economically and culturally. Here you will find powerful, warm people, consideration and social services, towns and wilderness. Norrbotten offers excellent opportunities for a good work-life balance.

Gällivare

Gällivare is a large municipality of about 16 000 km². In this territory the villages are obviously spread out and quite distant from each other but you can easily access them by car, bus, cycle or moped. Gällivare literally stands with one foot in the stunning mountain world and the other in the cosy countryside. In between is the town of Gällivare with a wide range of hotels, restaurants, activities and tourist attractions. To see more visit <http://www.gellivarelapland.se/bra-att-veta/?lang=en>

About the Workplace - Gällivare hospital and the Health Care Centres

Gällivare Hospital is a rural hospital and the second largest hospital In Norrbotten with specialists in internal medicine, surgery, orthopedics, obstetrics/gynecology, pediatrics, ophthalmology, otorhinolaryngology, psychiatry and radiology. The hospital has 700 employees and 93 beds. There are three Health care centres in the area – Laponia Hälsocentral, Pajala Hälsocentral och Jokkmokk Hälsocentral.

Duties and qualifications

As a **Nurse in General Care** you will work independently and as part of the care team with responsibility for nursing within patient related activities. The work with patients will consist of assessment, treatment and care giving activities. Other tasks are documentation according to relevant law, guidelines and specific care-giving tasks for nurses in the wards.

We are looking for nurses who:

- are service minded and recognise that good care is essential
- are interested in the development of care and person-centred care
- want to be part of a team and who see challenges as opportunities that are encountered on a daily basis
- want to take part in influencing our activities towards better care processes

For a position as a nurse in general care, you must be a registered nurse in an EU/EEA country.

Employment facts

We offer permanent full time employment. We will help with practical arrangements like accommodation and introduction programme, and provide language training.

Salary

Region Norrbotten practises individual salary setting in accordance with collective agreements.

Interested?

In April we are planning to visit Thessaloniki and Athens at the EURES "Swedish Week" and hold interviews.

Send your application and personal letter, not later than 26th March, to health@arbetsformedlingen.se, write "Greece April 2017" in the subject line of your mail. We are looking forward to receiving your application as soon as possible.
